Part-time set roster options

ESTA is pleased to announce the introduction of set part-time roster options. These options increase ESTA's ability to meet operational requirements during peak periods of demand.

The part-time roster options average no more than 32 hours a week and no more than one Saturday shift in every two weekend cycle, allowing employees flexibility and balance to meet their individual circumstances and work preferences.

Please note:

- Initial classroom training is to be completed on a fulltime basis during Monday to Friday business hours, over an approx. 5 week period.
- Employees engaged on a set part-time roster option are required to commit to all shifts included in the roster option selected, individual shift amendments cannot be accommodated.
- Set part-time rosters are structured over a fixed fortnightly basis.
